

Cookies and Other Electronic Technologies From time to time, we may also collect data about your use of the Platform through the use of internet server logs, cookies, and/or tracking pixels. An internet server log is a file where website activity is stored. A cookie is a small text file that is placed on your computer when you visit a website that enables us to: (i) recognize your computer; (ii) store your preferences and settings; (iii) understand the web pages of the Platform you have visited; (iv), enhance your user experience by delivering content specific to your interests; (v) perform searches and analytics; and (vi) assist with security administrative functions. Some cookies are placed in your browser cache. Tracking pixels (sometimes referred to as web beacons or clear GIFs) are tiny electronic tags with a unique identifier that are embedded in websites, online ads, and/or email and are designed to provide usage information like page clicks, measure popularity of the Platform and associated content, and access user cookies. We may update this Notice from time to time as we adopt new technologies to gather additional information through other methods.

Please note that you can change your settings to notify you when a cookie is being set or updated, or to block cookies altogether. Please consult the “Help” section of your browser (e.g., Internet Explorer; Google Chrome; Mozilla Firefox; or Apple Safari) for more information. Please note that by blocking any or all cookies, you may not have access to certain features or offerings of the Platform.
